I. INTRODUCTORY STATEMENT

Saranac Lake Community Store, Inc. (the “Company”), is a C corporation that was incorporated in New York State on February 16, 2007. A C corporation is a distinct legal entity that pays tax on the income that it earns and files its own tax return. A C corporation can issue dividends and, absent restrictions, its stock shares are transferable. As of the date of this Offering Prospectus, the Company’s principal office is 118 Shepard Avenue, Saranac Lake, NY 12983, and the Company’s telephone number is 518-891-0197.

Prospective investors should be aware that investment in a small business can be risky. No one should invest money in this offering unless they can afford to lose their entire investment. See Section II herein for a discussion of risk factors

The Company proposes to use the net proceeds from this offering to establish a department store (“Store”) in downtown Saranac Lake, NY. The Company expects the Store to carry a variety of goods and products including good-quality, reasonably-priced family clothing (men’s, women’s and children’s), shoes, baby supplies, linens and towels, fabric, sewing notions, and craft goods.

In particular, the Company will attempt to carry many of the basics and necessities that are not readily found in the tri-lakes area: items such as red heart yarn, sewing needles and thread, clothing patches, fruit of the loom underwear and other clothing in extra-large sizes, simple jeans, crochet hooks and shoe laces. The Store is expected to carry both brand name and off-brand items. The Company expects the Store to be competitive with other regional retail operations on the basis of price, service and quality.

The Company is planning to secure retail space in or near downtown Saranac Lake, renovate the space, stock the Store, and hire a manager and assistant manager/buyer. The manager will hire sales associates and other necessary employees. If the minimum offering proceeds are raised by mid-summer, the Company believes the Store could be operational in the fourth quarter of 2007.

The Company expects that the majority of the stock shares in this offering will be purchased by residents and businesses of the communities served by the Store. The Company is in the development stage and, as of the date of this Offering Prospectus, it has not yet conducted any operations. The fiscal year of the Company will end on December 31.

The Stock Offering:

The Stock shares being offered hereby will be sold by the Directors and Officers of the Company. There will be an impound of the offering proceeds until the minimum of \$500,000 is raised and deposited therein (See Page 6). The sale of shares in this offering is limited to bona-fide residents of New York state. During the first nine months after close of the offering, the transfer of stock shares shall be restricted to bona-fide residents of the State of New York. During that period, to ensure compliance, a selling shareholder must obtain written approval from the Company before any resale of shares can be effectuated on Company records. (See “Description of Securities Offered,” Page 12).

Prospective investors should review and consider the terms and risks of this offering before making an investment in the Company. No government regulator is recommending these securities. No government regulator has verified that this document is accurate or determined that it is adequate. It is a crime for anyone to tell you differently.

This Disclosure Document contains the material information and representations about this offering. No one has been authorized to give out different information, whether verbal or written. Prospective purchasers should rely only on the information in this Disclosure Document and official supplements, if any, thereto.

II.

FACTORS TO BE CONSIDERED

BY PROSPECTIVE PURCHASERS.

Before investing in Company Shares, prospective investors are urged to consider the following factors:

A. Newly Organized. The Company is newly formed and the business is in the development stage and lacks prior sales history.

B. No Operating History. Since its incorporation in February, 2007, the Company has not commenced operations, hence it has no operating history. There is no assurance that the Company will generate expected revenues and/or that its operations will be profitable. The Company believes that the proceeds from the sale of stock and expected sales revenues will meet its cash needs for the first twelve months of operation. However, should the Company experience a prolonged period without profit the Company's ability to remain in business could be jeopardized.

C. Competition. As of the date of the Offering Prospectus, the existing retail competition in the town of Saranac Lake is limited. However, there is always the possibility that a competitive retailer could locate in or near to the Village of Saranac Lake. The presence of new competition could negatively impact the Company's ability to achieve profitable operations. See Page 8.

D. Inexperienced Management. None of the Company's officers and/or directors have managed a department store business similar to the proposed Store. The success of the Company will, in large part, depend on the hiring of an experienced Store manager and buyer.

E. Promoters. No petition for bankruptcy, receivership, or similar insolvency proceeding has been filed by or against any Officer, Director, or key person within the past five years. No Officer, Director, or key person has made assignments for the benefit of creditors or been adjudicated bankrupt. No Officer, Director, or key person has been a principal of any entity that has made assignments for the benefit of creditors or been adjudicated bankrupt or involved in a reorganization in bankruptcy. No Officer, Director, or key person has been accused of a crime or convicted in a criminal proceeding, excluding traffic violations or other minor offenses. No

Officer, Director, or key person is or has been the subject of a complaint, court order, judgment or decree in the last five years related to his or her involvement in any type of business, securities, or banking activity. No self-regulatory agency has threatened, is considering or has imposed a sanction against any Officer, Director, or key person in the last five years as a result of his or her involvement in any type of business, securities, or banking activity.

F. No Assets or Liabilities. As of the date of this prospectus, the Company does not have any assets or liabilities.

G. Sale of Less Than the Maximum. In the event that less than all of the offered securities are sold, the risks to investors will increase and the amounts available for the intended purposes will decrease.

H. Illiquid Investment. An investment in the Company is an illiquid investment and no secondary or public market is anticipated or likely to develop for the sale or resale of the stock.

I. Dilution. The purchaser of shares should expect to experience a five per cent (5.0%) dilution of his/her invested capital as a result of the purchase of shares (see page 17). The Promoters will not receive compensation for the sale of stock shares and they are not expected to realize any profit at the expense of the investors from the sale of shares in this offering.

J. Control of the Company. When at least the minimum number of shares in this offering have been sold, the control of the Company shall then pass to the shareholders. At the first annual shareholder's meeting the shareholders shall elect directors and approve the Bylaws.

K. Restrictions on Sale of Shares in the Offering. The Company's shares will be sold only in the State of New York. The Company expects that most of the stock shares will be purchased by residents of Saranac Lake and nearby communities. Restrictions will be placed on the ownership and re-sale of all shares of stock. No investor will be permitted to purchase more than one hundred (100) shares of stock. The pool of prospective investors may be limited by this restriction and the Company could thereby experience difficulty in raising the maximum amount (\$600,000).

L. Dividends Not Anticipated. The Company does not intend to issue dividends in the foreseeable future. However, should there come a time when the Company's operating income exceeds operating expenses, and its working capital needs and other cash needs are met, Management expects that it would then consider the issuance of dividends.

M. Arbitrary Offering Price. The price for the shares of stock of this offering has been established in an arbitrary manner and is not related to net tangible assets per share.

N. Risk. A purchase of the offered securities involves a high degree of risk, an investor must be willing and able to tolerate a total loss of investment as this is a speculative venture.

M. Projections. Statements made in this Prospectus that contain or describe the Company's objectives, projections, estimates, expectations or predictions of the future may be

"forward-looking statements" within the meaning of securities laws, which can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "estimates," "anticipates" or the negatives thereof or other variations thereon. The Company cautions that, by their nature, such forward-looking statements involve risk and uncertainty, and that the Company's actual actions or results could differ materially from those expressed or implied in such forward-looking statements or could affect the extent to which a particular projection is realized. Unanticipated events or circumstances occurring after the date of this Prospectus could negatively impact said projections or estimates.

III. PROFITS OF PROMOTERS

The promoters of this offering are the directors and officers of the Company. The promoters are not expected to receive any profit at the expense of the investors. The promoters shall not receive any direct or indirect compensation for sale of shares in this offering. As of the date of this Disclosure Prospectus, the promoters have not entered into any transaction, or proposed to enter into any transaction, with the Company. Future personal dealings between promoters and the Company are not prohibited per se, but any future contract or transaction between a promoter and the Company would have to be approved by a majority of the Company's non-interested directors.

V. CAPITALIZATION.

The Company is a C corporation, incorporated in the State of New York. The Company has one class of stock: Common. As of the date of the offering prospectus there were no common shares outstanding. The number of common shares authorized for issuance is 100,000 shares. The par or stated value per share is \$0.10. There are no common shares that have been reserved to meet conversion requirements or for issuance upon the exercise of options, warrants or rights.

If all of the securities offered by this Disclosure Prospectus are sold, at the conclusion of the offering there will be 6,000 shares outstanding. If only the minimum number of shares offered are sold, at the conclusion of the offering there will be 5,000 shares outstanding.

The company expects to enter into a leasehold commitment for a term of from 2 to 4 years for retail space of approximately 5,000 square feet. Based upon informal surveys, the Company expects the lease rate for such space will be from \$2,200.00 to \$4,200.00 per month.

VI. DESCRIPTION OF THE BUSINESS

THE STORE. The Company intends to operate a retail department store that sells reasonably priced quality products to the general public. Categories of products to be sold is expected to include: clothing - men's, women's, and children's, shoes baby supplies, linens and towels, fabric and sewing notions, and craft goods. The Company intends to purchase products from established wholesale suppliers. As of the date of this Prospectus, there are no sales to report.

The Company has based its model for a community-owned retail store in part on similar stores that have been established successfully in Powell, Wyoming and at least six other communities in the western States. While gross sales in this segment of the retail industry are small compared to the whole, the positive impact of these stores on their communities has been significant.

The Company has not, as of the date of the Offering Prospectus, entered into any major supply contracts. The Company does not expect that the Store will be dependent upon a limited number of suppliers. The Company expects that sufficient numbers of suppliers do exist for the products to be sold in the Store. In addition, to increase its purchasing power, the Company will investigate the advantages of shared purchasing arrangements with other similar stores. As of the date of the Offering Prospectus, the Company does not have any major sales contracts or shared purchasing agreements.

The Company's intention is to locate the proposed store in downtown Saranac Lake, NY. The Company expects that most of the Store's expected customers will be from the 2,412 households in the Town and Village of Saranac Lake as well as the additional 7,143 year-round households in the Retail Trade Area - which includes those communities within a 30 minute drive of Saranac Lake Village, including Tupper Lake, Lake Placid, Keene and Keene Valley - with a total year-round population of more than 22,000 people. In addition, the Company expects the Store to attract customers from among the more than 6,000 seasonal residents in Saranac Lake, as well as the 2,000 students attending the local Community College. Additionally, the Company expects the Store to attract customers from the more than 3 million individuals that visit the Adirondack Park region each year.

Saranac Lake, NY, has the largest population of any community in the Adirondack Park. In 1998, Saranac Lake was designated an "All-American City" by the National Civic League. Saranac Lake serves as a hub for the High Peaks Region of the Adirondack Park. Strategically located at the intersection of two major NYS routes - Route 86 and Route 3 - Saranac Lake is the commercial center for the Retail Trade Area: with three car dealerships, two lumber and home

centers, two hardware stores, three furniture and appliance stores. Saranac Lake is also the economic hub for the region's two colleges and three prisons, as well as the Trudeau Institute, the American Management Association, three NY State Agencies, and the only hospital offering comprehensive care within 45 miles.

The Company believes that the proposed Store will fit into the current mix of retail stores and that the Store will expand the range of choices to downtown shoppers.

COMPETITION: As of the date of this Prospectus, there were no retail stores similar to the proposed Store in downtown Saranac Lake. The proposed Store intends to partially fill that void created by the 2001 closure of Ames Department Store. Although Ames Corporation failed due to the corporation's lagging sales, the Ames Store in Saranac Lake had robust sales of over \$7 million during its last year of operation. The majority of the customers of the Saranac Lake Community Store are expected to be regional residents who want to purchase affordable clothing, baby goods, shoes, linens and towels, fabric, sewing notions and craft goods without having to travel outside the immediate region. The Company expects that many potential customers will be residents of the region interested in supporting a locally-owned business. The Company believes that customer support for the Store would continue even in the event that a "big box" store were to locate in the region.

EXPECTED COMPETITIVE ADVANTAGES OF THE STORE:

The Company expects to compete by price: The Company's intends to focus on specific categories of items as opposed to specific brands and, as a result, be able to offer competitive prices for the specific items, although not necessarily for the same brands. The Company is aware that a large discount chain could move into the area and, through its purchasing power, put pressure on suppliers to offer certain branded items at lower prices. The Company expects that it's community-ownership structure will relieve some of the pressure normally present in corporations to charge high prices in order to achieve maximum return on investment. The Company believes there will be less intense pressure on the Company to maximize profits and dividends because shareholders recognize that a primary shareholder benefit is the presence of the Store in the community. Thus, the Company should be able to utilize net earnings to keep retail prices competitive.

The Company expects to compete by service: The Company intends to be responsive to the needs of its customers, and will attempt to stock specific requested items whenever possible.

The Company expects to enjoy a competitive advantage due to its ownership by residents of the local Community: Management believes that there is a growing awareness in this region that it is important to support the local economy. Local residents appear to realize that a "multiplier effect" occurs to a dollar spent in a locally-owned store - that dollar tends to re-circulate to other local businesses. The Company intends to actively market the stock offering to residents of the Village of Saranac Lake and the adjacent Retail Trade Area. The Company believes that Shareholders will have an incentive to shop in "their" store even if a big-box store were to locate in a neighboring community offering slightly lower prices .

The Company expects to enjoy a competitive advantage due to the anticipated location of the Store: Presuming it is sited in or near downtown Saranac Lake, the Store will offer convenient shopping to people who come to downtown Saranac Lake for shopping or other reasons. Shoppers are attracted to the downtown area for the variety of stores, the Town library, Town Hall, post office and other consumer related businesses such as hair salons, banks, etc.

The marketing of the Store will begin with this stock offering, as it will make people aware of the new business. Although stock shares will be available for sale to any bona fide resident or business in New York State, shares of stock will be most actively marketed to people who reside in the Village of Saranac Lake and the communities immediately adjacent to Saranac Lake. Every shareholder will be a potential customer for the Store. It is expected that local print and radio coverage of the stock offering will assist in spreading the word about the Store.

ADVERTISING FOR THE STORE: Once the business is fully capitalized, the Company will promote the Store's grand opening in the local media. The Company expects that the Store's promotions will stress the "local ownership" aspect, and that promotional flyers will be distributed at low/moderate income housing sites, at North Country Community College and other locations where potential customers congregate, including libraries, churches, Senior Centers and in nearby towns. The Company expects that word-of-mouth will be very effective in promoting the Store. Promotional Flyers may be distributed through the local newspaper to promote weekly specials. The Company's initial marketing campaign will be funded by the proceeds of this offering.

STAFFING OF STORE: As of the date of the Offering Prospectus, the Company does not have any employees (clerical, operations, or administrative). Within the 12 months following the close of the Offering, the Company expects to hire between five and seven employees (some part-time). These likely will include: One Store Manager, one Assistant Manager/Buyer, 3-5 Staff Associates, who will be hourly employees serving as sales associates, cashiers, customer service staff, and receiving/warehouse staff. The staff associates may be part-time or full time. Additional hourly employees may be added as sales grow.

BENEFITS TO STORE EMPLOYEES: The Company has not yet entered into operations and does not have a history of labor relations. As to employee benefits or incentive arrangements, the Company anticipates that after completion of a to-be-established "trial" period the store manager and assistant manager/buyer will receive health insurance; and, after completion of a to-be-established "trial" period, full-time hourly employees will receive health insurance. All employees will be eligible for vacation days and sick/personal days.

VII. DESCRIPTION OF LEASED PROPERTY

As of the date of the Offering Prospectus, the Company had not entered into any lease for retail space. The Company is searching for retail space of approximately 5,000 square feet in downtown Saranac Lake. Management has identified several prospective sites, but negotiations have not progressed enough to provide more detail.

Based upon initial inquiries, the Company believes that the annual lease cost of a 5,000 square foot space in the downtown area would range from \$27,000 to \$52,000. The Company expects that the Store will generate sufficient cash flow to pay the lease and other upkeep costs. (See “Use of Proceeds,” at page 5).

XIV. EXPERTS

1. Attorney: Legal matters in connection with the preparation of the Disclosure Prospectus and the offering of Shares were passed upon by Charles J. Noth, Esq., a member of the bar of the states of New York and California, and associated with the law firm of Smith, Dwyer and Bliss, PC, 2296 Saranac Avenue, Lake Placid, NY 12946. In preparation of the Disclosure Prospectus, Attorney Noth relied upon the representations and statements made by Directors and Officers of the Company as to facts regarding the Company and its business, and as to the background of the Directors and Officers. He expresses no opinion as to any factual matter set forth in the Disclosure Prospectus and no attempt was made to independently verify any of the representations or statements made to him. Accordingly, prospective investors may wish to consult with their own legal and financial advisors, as they deem appropriate, to review and consider the factual representations and information set forth in this Disclosure Prospectus.

2. Financial Projections. The Company's Financial Projections were prepared by Melinda L. Little. In preparing said Projections, Little researched costs, using actual cost estimates wherever possible, and consulted with experienced and established retailers in the Village of Saranac Lake. Little is an experienced entrepreneur, she wrote the initial Business Plans for both of her companies - The Company of Women and Independent Means ("IMI"). IMI is a leading provider of financial education programs and services in the USA. As part of her work with IMI, Ms. Little acts as a judge for the Dollar-Diva Business Plan Competition. She also manages two IMI programs for teens: "Camp Start-up" for the budding entrepreneur, and also "Summer\$tock" an educational program for the investment novice. Prospective investors are reminded that, as to the financial projections prepared for the Community Store, there is and can be no guaranty that said financial projections will be achieved or that the Store will become profitable. The retail department store business is risky and there can be no guaranty that the assumptions used in the Financial Projections will prove accurate or that the Projected financial results will be obtained.

3. Accountant. The Company intends to hire an accountant once the Offering has been completed. The accountant will represent the Company in the preparation of the Company's tax returns and in the preparation of the Company's annual financial statements.

XV. FINANCIAL STATEMENTS

The Company is newly formed and has no operating history. Consequently, there are no financial statements for past operations.

As of the date of the Offering Prospectus, the Company has prepared financial projections, based upon assumptions management believes to be reasonable, that project the Company's financial performance. There is no guaranty or promise by management that said financial projections will be achieved or that the store will become profitable. The retail department store business is risky and there can be no guarantee or assurance that Management's assumptions are accurate or that the projections will be realized.

The Company's balance sheets and profit and loss statements shall be prepared in accordance with generally accepted accounting principles applied on a basis consistent with previous years or periods and shall include an opinion by an independent public accountant as to the fairness of presentation of the Company's financial position and results of operations reflected in the financial statements.

XVI. OTHER MATERIAL INFORMATION

The Promoters represent and warrant that this Disclosure Prospectus contains a fair summary of material facts, does not knowingly omit any material fact, and does not contain any untrue statement of material fact.

1. COMPANY HISTORY

The idea for the Store arose out of the Save Saranac Lake Coalition. In early 2006, the Alternative Retail Options Committee was formed for the purpose of identifying retailers who potentially might be interested in establishing a store in Saranac Lake. The Committee was comprised of local residents and business owners. During its research, the Committee became aware of community-owned department stores. The Committee then hosted a community-wide public forum featuring presentations by Sharon Earhart of the Mercantile Store in Powell, WY (an existing community-owned department store), Steve Alves who represented the Mercantile in Greenfield, MA (a store then in the planning stage), and Nancy Neff who represented an emerging store in Stafford Springs, CT. The Forum's attendees responded in a positive fashion and the Committee decided to develop plans for a Community Store in Saranac Lake. In July 2006, the Committee re-formed as the Saranac Lake Community Store Project Committee and recruited several Advisors from the local community. Financial projections were developed with input from the Advisors and finalized in December, 2006.

2. RESEARCH AND DEVELOPMENT

As of the date of this Disclosure Prospectus, the Company has spent little or no funds on market research. The extent of its research has been to hold three Public Forums in Saranac Lake and one in Keene Valley; and also to give various presentations to civic groups. At these events, the attendees were asked for feedback, ideas and to complete surveys.

3. GOVERNMENT REGULATION

The Company does not believe that its business operations will be subject to material regulation by governmental agencies; nor does the Company expect that its products or services will be subject to material regulation by governmental agencies.

Apart from town planning board approval of tenant improvements to the retail space, the Company's property is not expected to be subject to material regulation by any governmental agency. A New York State sales tax permit, obtainable from the NYS

Department of Taxation and Finance is required and the Company intends to obtain the sales tax permit following the conclusion of this Offering. Although the Company is not aware of any other license or permit necessary to conduct its business, upon notice of the need for any such permit or license, it would act expeditiously to obtain same.

4. **DISCUSSION & ANALYSIS OF CERTAIN RELEVANT FACTORS.**

The cash-flow projections are based on estimates of start-up expenses, initial operating expenses, and monthly receipts once the store becomes operational. Any increases in projected costs, or decreases in projected revenues, could result in a cash flow or liquidity problem. However, the cash-flow projections are based on conservative estimates of the potential expenses, margins, and sales volume of the business. The projections also include a working capital/contingency fund which management believes is sufficient to cover any ordinary cash flow problems.

It is possible that a competitive retail store might appear in Saranac Lake area that could have a negative impact on the Store's sales. However the Company has anticipated such competition and believes that the Store would survive because its profitability is based on realizing only a small percentage of the region's potential retail sales in categories offered for sale in the store (i.e., family clothing, shoes, baby goods, linens and towels, fabric and sewing notions, and crafts).

5. **COMPENSATION TO OFFICERS AND KEY EMPLOYEES**

As of the date of this Prospectus, the Company has not paid any compensation to any Officer or Director. As of the date of this Prospectus, the Company is not compensating the Officers or Directors and does not intend to compensate the Officers or Directors.

Following the successful conclusion of this Offering, the Company does expect to hire and enter into employment agreements with key employees such as the Store Manager and Assistant Manager.

6. **TAX ASPECTS**

The Company does not anticipate that there will be any material tax consequences to investors from an investment of shares in this offering. However, each investor is urged to consult with his/her own tax advisor.

7. DILUTION OF INVESTMENT

The price of the securities in this offering has been arbitrarily determined. The net tangible book value per share before commencement of the offering was \$0.00. The difference between the amount a purchaser pays for a share and the amount of net tangible book value that share represents is the dilution to the purchaser.

For the minimum offering: The estimated net tangible book value per share after the minimum offering is achieved will be \$95.00. The amount of increase in net tangible book value per share as a result of receipt of cash from purchasers in this offering will be \$95.00. The estimated dilution per share to purchasers will be at least \$5.00.

For the maximum offering: The estimated net tangible book value per share after the maximum offering is achieved will be approximately \$96.00. The amount of increase in net tangible book value per share as a result of receipt of cash from purchasers in this offering will be \$96.00. The estimated dilution per share will be at least \$ 4.00.

For each share purchased in this offering a purchaser will pay \$100.00 but will receive a share representing, if the minimum offering is achieved, \$95.00 in estimated net tangible book value or, if the maximum offering is achieved, \$96.00 in estimated net tangible book value.

8. MANAGEMENT TRANSACTIONS

The Company will not use any offering proceeds to acquire assets from any Officer, Director, key person, or principal stockholder. The Company will not use any offering proceeds to acquire assets from an associate of any Officer, Director, key person, or principal stockholder. As of the date of this Prospectus, the Company has no intention of using any offering proceeds to reimburse an Officer, Director, key person, or principal stockholder for moneys loaned or advanced to the Company. No such loans have been made or are contemplated. However, if a loan were made to the Company prior to the close of the offering, that loan would be repaid out of offering proceeds. A full description of any material loan to the Company would be fully described and published in a supplement to the Offering Prospectus.

(a) The Company has no plans to make present or future loans to any Officer, Director, key person, or principal stockholder.

(b) The Company has not and is not engaged in business with any Officer, Director or key person within the last two years and, the Company has no plans to do business with its Officers, Directors, or principal stockholders in the future.
